

SARS NEWSLETTER IDEAS

July, 2005

- Where to find it column
Sources for antique radio components, refinishing materials and schematics
- Restoration tip of the month
Special techniques members have discovered regarding electronics trouble shooting, cabinet refinishing, fixing and replacing components
- Find of the month or favorite find of all time
Which radio was a recent special find or your favorite find of all time, especially if it is accompanied by a good story
- Radio photo of the month
It could be yours or someone else's radio as long as it would be of interest to the group
- Profile of specific radios
History of a specific radio, tube, speaker, etc.
- Profile of radio manufacturers
Historic view of makers such as Colonial, Griebe, Grunow, Bosch, etc.
- Profile of SARS club members
I think we probably have some interested backgrounds in the club
- Radio book reviews
Judging from Les's presentation, there are probably many good radio books we are not aware of
- Old radio ads
I probably have enough for a year or two of newsletters. Gordon probably has enough for five years
- Articles from other newsletters
If one of our members finds an interesting article, I am sure the host of the original newsletter would agree to share
- Reports on field trips to auctions, swap meets, and ham fests
Whenever a swap meet or ham fest is mentioned at a regular club meeting it seems someone has attended it. The verbal reports are always interesting, so why not write them down?
- List of upcoming events
We have this on the web site and in the ARC, so maybe this is superfluous
- Classified – for sale or wanted items
I realize there are multiple sources for this information, but it is still a possible category
